

REMARKS

According to a Notice to Comply mailed on September 19, 2007 in connection with the present application, this application failed to comply with the requirements set forth in 37 C.F.R. 1.821-1.825, since the sequences disclosed in the Sequence Listing were not references by sequence identifiers everywhere in the specification. Having reviewed the specification, Applicants identified Table 3, as well as Figures 6, 7 and 10, as reciting sequences without the applicable SEQ ID NO. The foregoing amendments address this deficiency, and are believed to bring the application in full compliance with 37 CFR 1.821(d).

The notice further indicated that the amendment was non-compliant because the abstract was not presented on a separate sheet as required under 37 CFR 1.72. Applicant submits herewith an abstract on a separate sheet, thus bringing the application in compliance with 37 CFR 1.72.

CONCLUSION

Applicant believes that the application is now in condition for examination.

Respectfully submitted,

HELLER EHRMAN LLP
